

## Your Fast-Track to Career Training

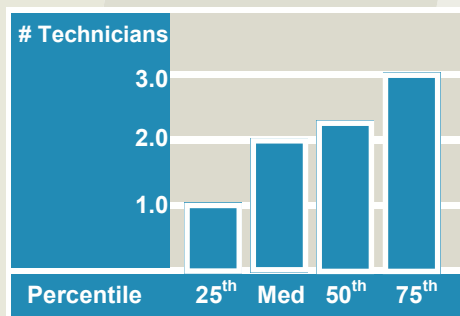

Our online diploma programs are designed to fast-track your career development. You can enjoy a career as a small animal technician working in the veterinary field, earning your credential in as little as 20-weeks!

Our comprehensive curriculum has been professionally designed to streamline the learning process by emphasizing comprehension of the material and teaching the fundamentals for long-term retention. The clinic externship program additionally provides the opportunity for learning hands-on skills. Our students prove to be competent technicians at the completion of their program of study.

### FREE Job Placement Assistance

As part of your technician program training you will have the opportunity to get real work experience in an actual veterinary clinic or hospital (there are no restrictions on you getting paid during your externship). We provide FREE externship and job placement assistance for as long as you need it!

### TECHNICIAN-TO-VETERINARIAN RATIO

## SMALL ANIMAL TECHNICIAN ONLINE DIPLOMA PROGRAM

### Getting started is easy:

- Register by completing the Student Enrollment Agreement (available online or by contacting the school) and satisfy the remainder of the entrance requirements.
- Choose a start date—classes start monthly.

Veterinary Technical Institute

Earn your diploma as a  
Small Animal Technician.  
It makes sense.

## CORE SUBJECTS TAUGHT

- Anatomy & Physiology
- Infectious and Parasitic Diseases
- Nursing and Emergency Care
- Laboratory Techniques
- Pharmacology
- Handling and Restraint
- Nutrition
- Dentistry
- Systemic Problems and Diseases
- Surgical Assistance and Anesthesia

## Veterinary Technician Oath

"I solemnly dedicate myself to aiding animals and society by providing excellent care and services for animals, by alleviating animal suffering, and promoting public health. I accept my obligations to practice my profession conscientiously and with sensitivity, adhering to the profession's Code of Ethics, and furthering my knowledge and competence through a commitment to lifelong learning."

## Online Diploma Program for Small Animal Technicians

### Get a career!

Our online diploma programs are designed for students to get trained in a short period of time (graduate in 20 weeks), develop valuable career skills in the veterinary field, and gain employment as a technician in a veterinary practice.

Studies show that people who earn a postsecondary school credential to develop a career make more money over the course of their life than those who don't.

So get a professional career in veterinary medicine!

### Get specialized!

Following successful program completion, our seminars can provide you advanced training for career specialization. We offer continuing education in emergency care, laboratory, dentistry, anesthesia and surgical nursing, nutrition, and diagnostic imaging.

### Get educated from the comfort of your own home!

Our online classes are easy to take—you only need a telephone and internet access.

All classes are LIVE and interactive so you have plenty of opportunity to discuss the material and your incorporated clinic experience in a small class environment.

We offer day and evening classes to fit your schedule.

No matter where you live, we can bring the school to you!

### Work with a veterinarian

You gain REAL experience working in a veterinary facility where you can develop hands-on skills necessary for your career training. Through our clinic placement assistance program we will help match you with a clinic in your area where you can complete your externship and even gain employment.
